BRIEF ABSTRACT OF LETTER.

States that the annual cost of water required for the gardens & Parks attached to the Private Sec's Quarters at Mysore will be about Rs 375 + requests that the same may be provided for ~~the~~ in the P.W. or the Gardens budget -

NOTES AND ORDERS.

It is believed that the use of pipe water ~~for~~ for garden purposes is not permitted by the P.W. Dept. It would perhaps be preferable to maintain a water-cart & take water from Doddere or Karanji tank which are close by the gardens referred to, the services of the gardeners being utilized for this work also

Whether the garden itself is a State one. If the garden has the reputation of the State whether instead of incurring a recurring Expenditure of Rs 180 per annum it would not be better to have a well sunk & the water pumped or drawn by the gardener. The Capital Cost for sinking a well and Engine &c could be found from the P.W. funds or its savings.

Sir,

I have the honor to submit the enclosed estimate amounting to Rs.375/- being the annual cost of the approximate quantity of water required for the lawns and gardens attached to the quarters at Mysore of the Private Secretary to His Highness the Maharaja and to solicit favour of sanction to the same.

2. The above building with its compound, the garden portion being exempted are in charge of the Public Works Department ; and I would therefore suggest that provision for the cost of water supply be made in their budget which would in my opinion also render adjustment of charges by book transfer easy . Should Government on the otherhand desire the cost to be borne by this office, I request that the existing grant of Rs.33/- allowed for "Office expenses and miscellaneous" of the above institution be kindly raised by Rs.375 making the total provision amount to Rs.408/- in the budget estimates of this office for the coming official year 1911-12 now pending before Government.
